

Factor Game Rules

1. Player 1 circles a number on the factor game board and records his or her number on the score sheet. The player receives that many points.
2. Player 2 then circles all of the factors of Player 1's number and records those numbers on the score sheet.
3. Player 2 then circles a new number on the factor game board and records his or her number on the score sheet.
4. Player 1 then circles all of the factors of Player 2's number and records those numbers on the score sheet.
5. Players continue taking turns until all numbers have been circled. Once a number is circled it cannot be used again.
6. The player with the highest score at the end of the game (the game ends once all the numbers have been circled) wins!
